## MEDICAL EXAMINING BOARD

### MEDICAL ORAL EXAMINATION INFORMATION

Oral examinations are scheduled on regular board meeting days. You are to appear at the time indicated on your admission card. The examination lasts approximately 20 minutes.

Please note that when you sign the Certification Statement upon admission to the examination, you agree not to discuss the questions or transmit any information about the examination in any form to any other person. When you have finished the oral examination please leave the examination area. The Medical Examining Board and the Department of Regulation & Licensing will investigate any break in security and initiate proceedings for discipline or denial of licenses where warranted.

The oral examination may include questions in the following areas:

1. Review of Application: Explain and clarify application information, discuss any problems you have had in previous practice situations.
2. Clinical Competence: Assess how the candidate orders his or her thoughts in the evaluation and management of a common clinical problem in an area of specialty or in an emergency.
3. Prescriptive practice questions.

There are no "trick" questions. If you do not understand the question, ask for clarification. If you do not know the answer, say so. The questions require you to demonstrate basic competence in medical and surgical fields.

If you are approved for a license, the license number will be available on the internet the Friday following your exam. Go to [www.drl.state.wi.us/](http://www.drl.state.wi.us/) and click on Business and Professional License Lookup.
